02 | How super works

About super
Superannuation is money you save now for when you’re ready to kick back and relax in retirement. Super is partly compulsory, and there are limits to how much you can contribute each year.

There are different types of contributions you can make to your super, like employer contributions and voluntary contributions. You can even get the government to pitch in with a co-contribution, if you’re eligible.

There are also rules and limits about when you can take money out of your super, like when you reach a certain age or can’t work due to permanent disablement, and how much you can withdraw.

Choosing your fund
You can usually choose which super fund you’d like to be in. Sometimes, your conditions of employment will decide which fund.

If you don’t have a choice, or don’t tell your employer where you want your super to go, your Superannuation Guarantee contributions (the bit your employer must pay into super for you) will be paid into a MySuper product.

Making contributions
Super is a tax-effective way to save for your future thanks to government tax concessions and savings. You can boost your super further by:

• deducting extra money from your before-tax salary. This is called ‘salary sacrifice’ and may even reduce your tax

• adding other savings (after-tax) into your Rest account - you may even be eligible for a government co-contribution if you do this.

Transferring low balances to ATO
From 1 July 2019, if your balance is under $6,000 on 30 June or 31 December and you do not have insurance, your account balance will be transferred to the Australian Taxation Office (ATO) if there’s no activity on your account, such as making a contribution or switching investment options over the past 16 months.

It just takes 3 steps and you may save on fees†

04 | Risks of super

Like all investments, super has risks. To balance risk, super funds generally invest in a broad range of asset classes such as cash, bonds, property and shares. Assets with the highest potential return over the long term (such as shares) may also be higher risk in the short term. How you invest your super depends on the level of risk you’re OK with. Different strategies may carry different levels of risk, depending on the assets that make up the strategy.

Some things to keep in mind

- The value of investment options can go up and down
- Future returns may differ from past returns
- Returns are not guaranteed, will vary, and you may lose some of your money
- Superannuation, social security and tax laws may change in the future
- The amount of your future superannuation savings (including contributions and returns) may not be enough to adequately provide for your retirement.

Other significant risks include currency fluctuations, interest rate changes, company specific risks, investment liquidity risks (turning investments into cash), and global market conditions.

The right level of risk for you will depend on factors such as your age, investment time frames, where your other assets are invested and how comfortable you are with the possibility of any negative returns.

You should read the important information about the risks of super before making a decision. Go to the ‘Investment Guide’ available at rest.com.au/pds The material relating to the risks of super may change between the time when you read this Statement and the day when you acquire the product.
05 | How we invest your money

Choose from many different paths towards tomorrow
Rest offers a range of investment options to suit your financial needs and objectives. You can even choose a combination of options to suit your personal level of risk and return. The Core Strategy is Rest’s default investment option. So if you don’t make an investment choice, or actively choose to invest all your money in the Core Strategy, you’ll be a MySuper member. If you choose not to put all your super into the Core Strategy, you’ll be a choice member.

SUPER TIP #3
Think about risks, returns and time frames
Always consider the likely returns, risk and timeframe when choosing investment options. Use our online advice tool to help you make the right investment choices. Visit rest.com.au/advice to get started.

You should read the important information about how we invest your money before making a decision. ---

\(^1\) This is what we use to determine asset allocation. It is also used to measure if the investment objective is met. It is not a guaranteed rate of return. Rest does not use the Return Target (shown in the Product Dashboard) to set the investment return objective.

\(^2\) The asset allocation will vary year to year within the ranges shown in brackets. This also means the allocation to defensive assets and growth assets will vary from time to time. We reserve the right to vary the asset allocations, including the benchmarks and ranges, of all or any of the investment options, introduce new options or close existing options without prior notice (where permitted by law).

\(^3\) More information about risk band and level and Standard Risk Measure can be found in the ‘Investment Guide’ available at rest.com.au/pds

\(^4\) Returns are quoted at 30 June each year after fees not directly charged to your account and taxes have been deducted. The returns stated are correct as at 30 June 2018.
Consumer Advisory Warning

Did you know?
Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more
If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a superannuation fee calculator to help you check out different fee options.

SUPER TIP #4

Know how fees can affect you super
The calculator on the ASIC website at moneysmart.gov.au can be used to calculate the effect of fees and costs on your superannuation account balance.

As an industry fund, Rest operates only to benefit members. This helps us keep our fees low, providing you with great value for money.

Fees and costs
The tables on pages 10 and 11 show the main fees and costs for a Rest Super member wholly invested in the Core Strategy which are deducted directly from your account or from investment returns. You can use this information to compare the Core Strategy’s fees and costs with other super funds or products.

From 1 July 2019, if your account balance is less than $6,000 at the end of the financial year, or if you leave Rest, the total combined amount of administration fees, investment fees and indirect costs charged to you is capped at 3% of your account balance for the year (or the period until you left). Any amount charged above the cap will be refunded.

1 For information regarding the definitions of the fees and costs incorporated in the table above, please refer to the ‘Additional information on fees and costs’ at rest.com.au/pds. Past costs are not a reliable indicator of future costs.
Fee changes
All fees and charges are current and may be revised or adjusted by Rest from time to time. We may also introduce new fees. Where there is material or significant increase in fees or charges, we will give you at least 30 days prior notice, as required by law. This excludes investment fees which the Trustee reviews regularly.

Transfer to Rest Corporate
If your employer confirms your eligibility, your account may automatically transfer to Rest Corporate. Your insurance cover and insurance fees will change and we’ll notify you when the transfer occurs. If you would prefer to remain in Rest Super, you’ll have 30 days after the transfer to opt out.

The buy/sell spread for exiting is 0%.

Financial advice fees
If you talk to a Rest Adviser about complex advice, you’ll be charged a fee which you may be able to pay for out of your super. We’ll always talk to you about this fee first, and the Statement of Advice will set out the details of the fees.

You should read the important information about fees and costs before making a decision. 07 | How super is taxed

The tax treatment of super is complex and may change. We recommend you seek advice from an accountant, tax agent or financial adviser.

**Tax rules on your super**

- Rest will pay the tax applying to your account directly to the ATO
- Contributions into your super made from your before-tax salary are taxed at 15%
- Contributions made from after-tax money are not taxed by the fund
- Investment earnings are taxed at a maximum of 15%
- Withdrawals from your account may be taxed if you are aged less than 60
- Once you turn 60, you can withdraw your super tax-free.

If you go over the limit (cap) on your before or after-tax contributions to super, you will pay extra tax.

Your Tax File Number (TFN) is important

You should provide your TFN - without it we can’t accept any personal contributions from you.

And we might not be able to track down any other super accounts you have. This could mean you miss out on money that belongs to you.

**SUPER TIP #5**

**Don’t pay more tax**

Check that we’ve got your TFN so you don’t pay a higher rate of tax on your contributions, and you’ll avoid any nasty tax surprises when it’s time to access your super.

For information about how tax applies to super contributions, investment earnings and withdrawals, and the limits around how much you can contribute to your super, go to [rest.com.au/facts](http://rest.com.au/facts)
Protecting your most valuable asset. You.

Life doesn’t always go to plan. Insurance is the smart way to protect yourself financially.

If you’re 18 or over, and receiving mandatory employer contributions (like the Superannuation Guarantee contribution) you’ll automatically receive our Default Cover package.

If you’re not, you can still apply for cover, but you’ll need to provide health and other information. You can apply for cover online in MemberAccess.

Default cover is provided to you automatically if you’re eligible.

Unless you decline this cover, or your cover is canceled, the cost will be deducted each month from your Rest Super account. If you don’t have enough money in your account, your insurance cover will end without notice.

The Rest Super Insurance Guide available at rest.com.au/pds has more information about your insurance.

What is Default Cover?
Your Rest Super Default Cover is made up of:

- Default Death cover
- Default Total and Permanent Disablement (TPD) cover
- Default Income Protection (IP) cover.

Your Death and TPD cover is provided as a minimum insurance requirement under MySuper.

The total amount of cover you receive changes as you grow older and your insurance needs change. So your cover is lowest when you’re young, and your salary and needs are generally lower. As you get older, and your needs increase, your cover automatically increases, and reduces again as you approach retirement.

You are responsible for the payment of your insurance costs and they are deducted from your super account. Your insurance cover and costs are adjusted each year on your birthday.

**Death cover** provides your beneficiaries with a lump sum or pension if you pass away. It also includes an advance payment of your death benefit if you become terminally ill.

**TPD cover** provides a lump sum payment of $28,600 for most age groups to help you financially if you’re not able to work again.

**IP cover** helps you meet living expenses if you can’t work due to injury or sickness for more than 60 days. You’ll be paid up to 77% of your Pre-Disability income as a monthly benefit, plus an amount equal to 12% of your monthly benefit paid as super into your Rest Super account.
Changing your cover
You can reduce or cancel each component of your insurance. If you don’t want any insurance cover in Rest, you can cancel it.

If Default Cover isn’t enough for your needs, you can increase your cover by applying for extra voluntary cover:

• Death cover – up to any amount
• TPD cover – up to $5 million (or $1 million if you are aged 65 or over)
• IP cover – up to $30,000 per month (subject to your income).

Before you change or cancel your insurance cover, please consider your needs carefully. You can change or cancel your cover online in MemberAccess, or by contacting Rest on 1300 300 778 or via Live Chat at rest.com.au

Special offer for new members
If you have received default cover, you can increase this cover to a certain level without providing any health evidence (limits and conditions apply). You need to do this within 120 days of joining Rest Super.

SUPER TIP #6
If you leave your job, or your personal circumstances change, let us know straight away. Any changes could impact your insurance cover.
What if I have both Death and TPD insurance cover?

Your Death and TPD cover are linked. This means that any TPD payments will reduce your Death benefit by the amount paid. So if your Death and TPD cover are for the same amounts, your Death cover will cease if you are paid a TPD benefit. If your Death cover is higher than your TPD cover, you'll continue to be insured for the balance of your Death cover if you're paid a TPD benefit. Please note that when a Death benefit is paid, all TPD cover will cease on the date of your death.
